Name: _____ Class: _____ Date: _____

Answer each question on your own. This is a quick check of what you learned today – do your best!

1. Circle the correct answer. In PictoBlox, which block runs some code **only if** something is true?

a) forever b) if () then c) wait () seconds

2. True or False: The block **if () then / else** always runs ONE of its two parts, never both.

3. Which relational operator checks if two values are the same? a) < b) > c) =

4. Read the code: *if (score > 10) then say "You win!" else say "Try again"*

What does the sprite say when score = 7? _____

5. Write ONE real-life example of an IF / ELSE decision (for example: IF it is raining THEN take an umbrella ELSE wear sunglasses).

Score: ____ / 5

Exit Slip – Conditional Statements

AI in Action – Level 2 | AIJD1.7 | TEACHER ANSWER KEY

1. Circle the correct answer. In PictoBlox, which block runs some code **only if** something is true?

a) forever b) if () then c) wait () seconds

Answer: b) if () then

2. True or False: The block **if () then / else** always runs ONE of its two parts, never both.

Answer: True

3. Which relational operator checks if two values are the same? a) < b) > c) =

Answer: c) =

4. Read the code: *if (score > 10) then say "You win!" else say "Try again"*

What does the sprite say when score = 7? _____

Answer: "Try again" (7 is not greater than 10)

5. Write ONE real-life example of an IF / ELSE decision (for example: IF it is raining THEN take an umbrella ELSE wear sunglasses).

Answer: Any sensible example with a condition, a THEN action and an ELSE action

Scoring: 1 mark per question, total 5. Use results to decide who needs re-teaching before the next lesson.
