Name: _____ Class: _____ Date: _____

Answer each question on your own. This is a quick check of what you learned today – do your best!

1. **AND** is true when: a) both sides are true b) at least one side is true c) neither side is true

2. **OR** is true when: a) both sides are true only b) at least one side is true c) neither side is true

3. What does **NOT (touching edge?)** give when the sprite IS touching the edge? True / False

4. Fill in: $x = 5$, $y = 8$. $(x > 3) \text{ AND } (y < 6) = \underline{\hspace{2cm}}$ $(x > 3) \text{ OR } (y < 6) = \underline{\hspace{2cm}}$

5. Quarky should show a heart only when the **L button AND the R button** are pressed together.
Write the condition using an AND block:

Score: ____ / 5

Exit Slip – Logical Operators

AI in Action – Level 2 | AIJD1.8 | TEACHER ANSWER KEY

1. **AND** is true when: a) both sides are true b) at least one side is true c) neither side is true

Answer: a) both sides are true

2. **OR** is true when: a) both sides are true only b) at least one side is true c) neither side is true

Answer: b) at least one side is true

3. What does **NOT (touching edge?)** give when the sprite IS touching the edge? True / False

Answer: False

4. Fill in: $x = 5$, $y = 8$. $(x > 3) \text{ AND } (y < 6) = \underline{\hspace{2cm}}$ $(x > 3) \text{ OR } (y < 6) = \underline{\hspace{2cm}}$

Answer: AND = False, OR = True

5. Quarky should show a heart only when the **L button AND the R button** are pressed together. Write the condition using an AND block:

Answer: <(L button pressed?) and (R button pressed?)>

Scoring: 1 mark per question, total 5. Use results to decide who needs re-teaching before the next lesson.
